

March 18, 2020

To our clients,

As we continue to address the rapidly changing COVID-19 (“coronavirus”) pandemic, we want to update our clients with our activities to respond to this concern and our actions to protect you, our staff, and therapists.

The health and safety of our clients, staff, and therapists is our first priority and we will continue to take all appropriate measure recommended by Toronto and Ontario Public Health, our professional associations, and regulators. Our regulator has recommended that all non-essential provision of massage therapy be suspended at this time.

We have closed our clinics with the intention of re-opening April 1st, 2020. We will be ensuring that a further deep clean and disinfect is carried out at each and every clinic prior to re-opening.

For those with questions about COVID-19, who are concerned about potential exposure, or those with symptoms call Telehealth Ontario (1-866-797-0000), Toronto Public Health (1-416-338-7600), or your physician.

We look forward to continuing to address your massage therapy health needs once this situation has resolved itself appropriately.

Thank you and take good care.

Best Regards,

Grace Chan
President
